Un esempio di memorizzazione "a recitazione": i verbi irregolari

I fonemi passano dalla memoria a breve termine all'archivio fonologico di lunga durata del cervello tramite un processo che potremmo chiamare "a recitazione" (dall'inglese "rehearsal" (Williams & Burden 1997: 16).

Cerca di memorizzare questi gruppi di verbi irregolari ripetendoli ad alta voce a gruppi di tre o quattro, sfruttando la similitudine tra i suoni e il loro ritmo per fissarli nella tua memoria. A questo punto, copri la seconda e/o terza colonna e metti alla prova la tua conoscenza controllando se, leggendo la forma all'infinito, sei in grado di ricordare le forme corrispondenti per le altre due colonne.

The Sibillini Mountains: Witches, Fairies and Magical Caves

<https://www.youtube.com/watch?v=xv6E1PKf7zA>

Once upon a time, there **was** an enchanted cave, the home of a witch who **used to lure** unwary travellers there with her magical powers and imprison them underground for centuries. Here she **lived, surrounded** by fairies, beautiful young women who **used to descend** to the valley at night to dance with the local shepherds...

Thus begins the legend of the Sibillini Mountains and the enchanted grotto near the summit of Mount Sibilla, which **used to be** the entrance to the realm of an immortal sorceress who, centuries before the Romans **arrived, predicted** the future for her local devotees.

In fact, the figure of the Sybil **originated** in the primitive cults of the ancient Italic tribes which **used to live** in the Umbrian-Piceno region. The Appennine Sibyl **was** a good fairy, a seer, and an expert in astronomy and medicine, **worshipped** by the inhabitants of the remotest mountains, lakes and plains of the southern Marche.

Deep inside her cave, Queen Sibilla **lived** with her courtiers and guards, wild and lovely fairies who **used to dress** in goatskins. On summer nights, these sinister beauties **used to wander** far and wide, from Lake Pilato, where they **swam**, to the plains of Pian Grande, Pian Piccolo and the Pian Perduto near Castelluccio, where they **danced** in the light of the moon.

They **were** creatures of darkness who **used to emerge** from their enchanted realm after the sun **went** down and **returned** to their mountain fastness before it **rose** again. According to legend, the sibillian fairies **used to dance** all night, sometimes stealing people's horses to reach distant villages where they **used to teach** the local shepherds the 'saltarello'.

Thus **began** the myth of the bond between fairies and men. When they **fell** in love, the unsuspecting youths would be snatched away from their everyday lives and **confined** forever in the subterranean chambers of Mount Sibilla, virtually immortal, just like their fairy lovers.

The stories surrounding Queen Sibilla and her supernatural entourage **used to fascinate** the Umbrian folklore scholar, Cesare Lippi-Boncambi. By studying the tales carefully, he even **managed** to locate the cave. He **climbed** Mount Sibilla, **found** the grotto, **entered** it and **wrote** down everything he **saw**. He **was** one of the last visitors, though. Shortly afterwards, the entrance **collapsed**, the cavern **became** inaccessible and its mysteries **were** buried forever.
